写在前面

模板怎么用才有分

模板能帮你撑住结构，让你写作时不会卡壳。但分数能不能上去，还是看你往空里填的内容有没有逻辑。

同一个 While it is true that ____，有人填进去能拿 7，有人填进去还是 5.5，差距全在中间那段话讲清楚了没有。

建议你这样用这份资料：

- 1 先按功能找到对应模板（让步 / 举例 / 转折 / 结尾 / 趋势 / 对比）
- 2 看‘怎么用’和‘填空示范’，理解这一句的逻辑作用
- 3 用自己的话题填空 3 次，建立肌肉记忆
- 4 写完检查：模板填进去之后，意思有没有走样

⚠ 使用提醒

- 不要整段照搬模板，考官会识别
- 一篇大作文用 2-3 个模板就够了，过多反而扣分
- 模板是骨架，论点和例子才是肉，两个都得练

PART 1 | 大作文 (Task 2)

一、让步段开头

先承认对方有道理，再把重心拉回自己的观点。考官在 CC（连贯衔接）一项很看重这种处理。

No.1

经典让步开头

适用场景：Agree / Disagree 题型，需要先让步再反驳

While it is true that ____, this view overlooks the fact that ____.

怎么用：前半句承认对方观点的合理性，后半句用 **overlook** **the** **fact** **that** 把对方没看到的关键点拎出来，自然过渡到自己的论点。

填空示范：While it is true that online learning saves time, this view overlooks the fact that students lose the chance to develop social skills in real classrooms.

⚠ **overlook** 后必须接 **the fact that + 完整句子**，不要直接接名词。

No.2

部分同意句

适用场景：题目要求 To what extent，需要表达'部分同意'

I partly agree with this statement: although ____ does have some merit, the underlying issue lies in ____.

怎么用：考官特别看重 **partly / to some extent** 这种程度副词。前半承认对方的合理之处，后半用 **the underlying issue** 引出真正问题。

填空示范：I partly agree with this statement: although raising taxes on junk food does have some merit, the underlying issue lies in people's lack of nutritional awareness.

⚠ **underlying issue** 后接的是'根本问题'，不要写成具体例子。

No.3

反驳过渡句

适用场景：让步之后，正式开始反驳

However, such reasoning fails to take into account ____, which is arguably the most decisive factor in this debate.

怎么用：fails to take into account 比 but / however 更有逻辑感。arguably the most decisive 自然带出本段要论证的核心。

填空示范：However, such reasoning fails to take into account long-term mental health, which is arguably the most decisive factor in this debate.

⚠ decisive factor 后面这一段必须真的论证它'为什么是 decisive'，否则空话扣分。

No.4

二选一题型让步

适用场景：Discuss both views and give your own opinion

Both perspectives carry weight, yet upon closer examination, the case for ____ proves more compelling.

怎么用：Both perspectives carry weight 表示两边都看了，upon closer examination 引出'我仔细想过之后倾向哪一边'，比直接说 I think 更有学术感。

填空示范：Both perspectives carry weight, yet upon closer examination, the case for stricter government regulation proves more compelling.

⚠ 后半句之后必须给出至少 2 个理由说明为什么 more compelling，否则结构不完整。

No.24

弱化反对方开头

适用场景：对方观点被夸大或泛化时使用

Although it is widely believed that ____, this assumption rests on a rather narrow understanding of ____.

怎么用：rests on a narrow understanding of 暗示对方思路有局限。比 I disagree 更有学术感，能直接拉档次。

填空示范：Although it is widely believed that strict laws automatically reduce crime rates, this assumption rests on a rather narrow understanding of how social behavior is actually shaped.

⚠ narrow understanding of 后面必须接抽象概念（mechanism / nature / role），不要接具体名词。

二、举例展开

解决‘写完 for example 就卡住’的问题。例子写完之后必须回扣观点，不能让考官自己猜。

No.5

案例分析句

适用场景：举一个具体国家 / 公司 / 现象作为论据

Take ___ as a case in point. Over the past decade, ___, which clearly demonstrates that ___.

怎么用：前半句抛出案例，中间补背景或数据，最后用 which clearly demonstrates that 强制自己回扣观点。

填空示范：Take Singapore as a case in point. Over the past decade, the country has invested heavily in public transport, which clearly demonstrates that government intervention can effectively reduce traffic congestion.

⚠ which 后面接的句子必须是'对应你这段的核心论点'，不要写成新论点。

No.6

研究 / 数据引用句

适用场景：想引用研究但又不知道具体出处时使用

A growing body of research suggests that ___, with recent studies showing that ___.

怎么用：A growing body of research suggests 是安全的'虚指'，考官不会要求你写出具体的出处，但能让段落显得有据可依。

填空示范：A growing body of research suggests that working from home boosts productivity, with recent studies showing that remote employees complete 13% more tasks per day.

⚠ 数据可以编一个合理范围，但语气要稳，不要写 99% 这种夸张数字。

No.7

个人观察句

适用场景：实在想不出例子时，用'普遍现象'代替

It is not uncommon to see ___ in today's society, and this trend can be traced back to ___.

怎么用：It is not uncommon to see 是观察类例子的安全开头，this trend can be traced back to 自然引出原因分析。

填空示范：It is not uncommon to see teenagers spending hours on short-video apps in today's society, and this trend can be traced back to the algorithm-driven design of these platforms.

⚠ Task 2 用观察类例子最多 1 次，多了会显得论证薄。

No.8

反例句（拉分关键）

适用场景：需要论证'如果不这样做会怎样'

Consider, by contrast, what happens when ____: ____ becomes inevitable, undermining the very goal we set out to achieve.

怎么用：Consider, by contrast 提示考官'我现在要给反例了'。undermining the very goal 这种结构在 LR（词汇）一项很加分。

填空示范：Consider, by contrast, what happens when schools eliminate physical education: childhood obesity becomes inevitable, undermining the very goal of producing well-rounded students we set out to achieve.

⚠ 反例和正例之间的逻辑必须能闭环，否则考官看不出你想说什么。

No.25

历史 / 事实佐证句

适用场景：想用历史趋势 / 时代背景作为论据

History has repeatedly shown that ____, with the recent shift towards ____ being a clear example.

怎么用：History has repeatedly shown that 是非常稳的开头。recent shift towards 把抽象的'历史规律'落到具体趋势上。

填空示范：History has repeatedly shown that technological progress reshapes the labor market, with the recent shift towards remote work being a clear example.

⚠ 不要乱编历史事件，最好用泛化的'近年趋势'代替具体年份。

No.26

权威机构引用句

适用场景：想引用 WHO / UN / 政府报告等权威来源

According to figures released by ____, ____ has reached an unprecedented level, raising serious concerns about ____.

怎么用：released by + 机构名 让来源显得真实。unprecedented level 是高分词。raising concerns about 自然引出后续论证。

填空示范：According to figures released by the World Health Organization, childhood obesity has reached an unprecedented level, raising serious concerns about long-term public health.

⚠ 机构名要拼对（WHO / UN / OECD），不要瞎编。Bureau / Department of ____ 是相对安全的虚指。

三、对比转折

中间段万能过渡。考官特别看重 long-term / short-term 这种时间维度的论证。

No.9

长短期对比句

适用场景：想说'短期看着好，长期看不行'或反之

Although ____ does carry some short-term appeal, its long-term consequences are far more concerning.

怎么用：套这一句之后，下一句立刻展开 long-term consequences 是什么。时间维度的论证是雅思 7+ 作文的常见特征。

填空示范：Although banning private cars in city centers does carry some short-term appeal, its long-term consequences for small businesses are far more concerning.

⚠ 写完这句后，下一句必须真的解释'为什么长期看不行'，不要立刻又跳到新话题。

No.10

因果递进句

适用场景：从一个现象推导到更深的原因或结果

What lies beneath this phenomenon is ____, which in turn gives rise to ____.

怎么用：What lies beneath 比 The reason is 更有深度感，which in turn 推出连锁反应，体现因果链。

填空示范：What lies beneath this phenomenon is the widening income gap, which in turn gives rise to social tensions that no government policy alone can resolve.

⚠ 因果链最多推 2 层，再多就显得绕，考官会扣 CC。

No.11

多角度切换句

适用场景：段落之间需要切换论证角度（经济 -> 社会 -> 环境等）

Beyond the economic dimension, the issue also unfolds on a social level, where ____.

怎么用：Beyond the ____ dimension 是非常自然的角度切换。the issue also unfolds on a ____ level 暗示你要从新角度论证。

填空示范：Beyond the economic dimension, the issue also unfolds on a social level, where increasing automation reshapes the way people define their identity and self-worth.

⚠ 切换角度后必须真的从新角度论证，不要换汤不换药。

No.27

条件假设句

适用场景：想表达'如果……就会……'的因果

Were ____ to be implemented without proper safeguards, the outcome could prove counterproductive.

怎么用：倒装虚拟（Were ____ to）是 GRA（语法）拉满分的标志结构。counterproductive 比 bad 高级得多。

填空示范：Were artificial intelligence to be deployed in classrooms without proper safeguards, the outcome could prove counterproductive for students' independent thinking.

⚠ Were ____ to 后面动词必须用原形 + 过去式语气，不要写成现在时。

No.28

利弊权衡句

适用场景：段落需要先承认优势再指出代价

While the immediate gains of ____ are undeniable, the hidden costs—ranging from ____ to ____—deserve equal attention.

怎么用：ranging from ____ to ____ 这种插入语让句子立刻拉长拉高级。deserve equal attention 比 are also important 学术感强。

填空示范：While the immediate gains of urban expansion are undeniable, the hidden costs—ranging from environmental degradation to community displacement—deserve equal attention.

⚠ ranging from A to B 里 A 和 B 必须是同类词性（都是名词或都是动名词）。

四、结尾观点重申

结尾不要再写 In conclusion, I think... 这种小学作文味的开头。

No.12

权衡式结尾

适用场景：Agree / Disagree 题型的标准结尾

Weighing both sides, I would argue that the benefits of ____ outweigh its drawbacks, particularly when ____ is taken into account.

怎么用：Weighing both sides 暗示你前文真的讨论了双方。particularly when ____ is taken into account 抛出最后一个支撑点，把结尾立住。

填空示范：Weighing both sides, I would argue that the benefits of remote work outweigh its drawbacks, particularly when employee well-being and productivity are taken into account.

⚠ particularly when 之后接的内容应该是文章里出现过的，不要凭空冒一个新概念。

No.13

政策建议式结尾

适用场景: 题目问'是否应该 / 政府该怎么做'

Rather than treating ___ as a quick fix, policymakers should focus on ___, which addresses the root cause of the problem.

怎么用: Rather than treating ___ as a quick fix 暗示你看穿了表面方案。addresses the root cause 让结尾显得有深度。

填空示范: Rather than treating heavy taxation as a quick fix, policymakers should focus on improving public education, which addresses the root cause of the problem.

⚠ 结尾不要提全新的论点, policymakers should focus on 后面的内容建议是文章里讨论过的方向。

No.14

展望式结尾

适用场景: 话题涉及未来 / 趋势 / 科技

Looking ahead, the question is no longer whether ___, but how we can ___ in a way that benefits the broader society.

怎么用: Looking ahead 把视角拉到未来。the question is no longer whether ___, but how 是非常高级的议题升华句式。

填空示范: Looking ahead, the question is no longer whether AI will replace human jobs, but how we can integrate it into the workforce in a way that benefits the broader society.

⚠ 升华要建立在前文论证基础上, 不要为了升华而升华。

No.29

原则升华式结尾

适用场景: 想把具体话题升华到普遍原则

Ultimately, the issue boils down to ___: a society that values ___ will inevitably ___.

怎么用: boils down to 把复杂问题归到一个核心。a society that ___ will inevitably ___ 这种结构非常出彩。

填空示范: Ultimately, the issue boils down to priorities: a society that values short-term profits over public welfare will inevitably face deeper inequalities in the long run.

⚠ Ultimately 后面接的核心要和文章主线一致, 不要凭空冒新词。

五、主体段主题句

每段开头的第一句其实是拉分最高的位置。从经济 / 社会 / 环境 等不同角度切入, 能让作文走向立刻明朗。

No.34

主体段主题句 · 经济视角

适用场景：Task 2 主体段开头，从经济角度切入

From an economic standpoint, ___ generates substantial benefits that extend well beyond the individual level.

怎么用：From an economic standpoint 是非常专业的视角切换信号。extend well beyond 暗示影响有外溢效应。

填空示范：From an economic standpoint, investing in early childhood education generates substantial benefits that extend well beyond the individual level.

⚠ 用了 economic standpoint 之后，本段必须真的从经济角度论证（成本 / 效益 / 增长 / 就业），不要混入社会论点。

No.35

主体段主题句 · 社会视角

适用场景：Task 2 主体段开头，从社会角度切入

On a broader social level, ___ plays a pivotal role in shaping ___, with consequences felt across generations.

怎么用：On a broader social level 视角拉到社会层面。plays a pivotal role 是高分词组。consequences felt across generations 体现时间深度。

填空示范：On a broader social level, public transportation plays a pivotal role in shaping urban equality, with consequences felt across generations of city dwellers.

⚠ across generations 这种宏大表达，后续段落要真的有跨代论证（年轻人 / 老人 / 子女），否则显得空。

PART 2 | 小作文 (Task 1)

六、总体趋势 / 概述句

小作文一上来不要堆数据。先用一句概括全局趋势，考官在第一眼就给你 TR（任务回应）的分。

No.15

双对象趋势句

适用场景：图表中有两条曲线 / 两类对象

Overall, ___ witnessed a steady increase, whereas ___ experienced a noticeable decline over the period.

怎么用：witnessed / experienced 都是拟人化动词，比单调的 went up / went down 高级。whereas 把对比关系写明。

填空示范：Overall, the consumption of bottled water witnessed a steady increase, whereas that of carbonated drinks experienced a noticeable decline over the period.

⚠ Overall 之后必须真的是'全局趋势'，不要把某一段细节当作 overall 来写。

No.16

多对象趋势句

适用场景：图表有 3 条以上数据线

Overall, while ___ and ___ both saw upward trends, ___ moved in the opposite direction, leaving ___ as the most stable category throughout.

怎么用：把 3-4 条数据按'上升 / 下降 / 稳定'分组，比逐条罗列清晰得多。

填空示范：Overall, while online sales and mobile orders both saw upward trends, in-store purchases moved in the opposite direction, leaving phone orders as the most stable category throughout.

⚠ 分组要准确，不要把上升的和稳定的归到一起。

No.17

静态图概述句

适用场景：饼图 / 表格 / 静态地图（非时间序列）

Overall, ___ accounted for the largest proportion, while ___ made up only a small share, reflecting a clear imbalance across categories.

怎么用：饼图 / 表格用 accounted for / made up 比 had / occupied 更地道。reflecting a clear imbalance 自然引出对比。

填空示范：Overall, electricity accounted for the largest proportion of household energy use, while solar power made up only a small share, reflecting a clear imbalance across categories.

⚠ 饼图概述句不需要写百分比，留到正文写。

No.18

流程图 / 地图概述句

适用场景：Process / Map 题型

Overall, the process / transformation involves ___ key stages, beginning with ___ and ending with ___.

怎么用：流程图 / 地图概述固定套这一句，考官想看的就是'几步、起点、终点'。

填空示范：Overall, the process involves five key stages, beginning with raw material collection and ending with packaging for delivery.

⚠ stages 数量必须数对，地图题改成 major changes。

No.30

时间跨度强调句

适用场景：图表跨度长（10年以上），需要强调时间维度

Over the ___-year period, the data reveal a clear shift in ___, particularly in the latter half.

怎么用：Over the ___-year period 直接点出时间跨度。reveal a clear shift 比 show a change 高级。particularly in the latter half 暗示你抓住了关键阶段。

填空示范：Over the 30-year period, the data reveal a clear shift in household energy consumption patterns, particularly in the latter half.

⚠ 用了 particularly in the latter half 之后，正文必须真的展开后半段的细节。

七、小作文 · 细节描述

中间段拉分关键。找出反差最大、最有信息量的对比，再展开。

No.19

反差对比句

适用场景：图表里两个数据差距很大

The most striking contrast lies between ___ and ___, with the former far exceeding the latter throughout the period.

怎么用：The most striking contrast 是非常高分的开头方式。the former / the latter 体现你掌握指代用法。

填空示范：The most striking contrast lies between urban and rural areas, with the former far exceeding the latter throughout the period.

⚠ the former 一定指前面提到的那一项，the latter 一定指后面那一项，不要搞反。

No.20

数据上升 / 下降句

适用场景：描述具体的数字变化

The figure for ___ rose / fell sharply from ___ to ___, marking a ___ % increase / decrease over the decade.

怎么用：The figure for ___ 是描述具体数字的安全表达。marking a ___% 把变化幅度量化。

填空示范：The figure for online shopping rose sharply from 12% to 48%, marking a 36 percentage point increase over the decade.

⚠ 百分比和百分点是两回事：20% 涨到 30% 是 50% 增长，但只是 10 个百分点的增长。

No.21

拐点 / 峰值句

适用场景：图表里有最高点 / 转折点

The figure peaked at ___ in ___, before gradually leveling off in the following years.

怎么用：peaked at ___ in ___ 是描述峰值的标准句式。leveling off 表示'趋于平稳'，比 not change much 高级。

填空示范：The figure peaked at 320 million in 2018, before gradually leveling off in the following years.

⚠ leveling off 用于'先涨后稳'，不要用于'先稳后涨'。

No.22

稳定 / 波动句

适用场景：描述某项数据没什么变化或小幅波动

By contrast, ___ remained relatively stable, fluctuating slightly within a narrow range of ___ to ___.

怎么用：remained relatively stable 表示'基本稳定但不是完全不变', fluctuating slightly within a narrow range 把'稳定中的波动'写清楚。

填空示范：By contrast, the consumption of tea remained relatively stable, fluctuating slightly within a narrow range of 50 to 60 kilograms per capita.

⚠ 如果数据完全没变，用 remained unchanged at ___, 不要叠加 fluctuating。

No.23

流程 / 地图阶段连接句

适用场景：Process / Map 题型的中段过渡

Once ___ has been completed, the next stage involves ___, which prepares the ___ for the subsequent step.

怎么用：Once ___ has been completed 是流程图过渡的安全句式。subsequent step 比 next step 更地道。

填空示范：Once the dough has been kneaded, the next stage involves leaving it to rise, which prepares the mixture for the subsequent baking step.

⚠ 流程图全文用一般现在时被动态，不要用过去时。

No.31

倍数对比句

适用场景：两项数据存在明显倍数关系

By the end of the period, the figure for ___ was nearly ___ times that of ___, indicating a widening gap.

怎么用：nearly ___ times that of ___ 是描述倍数关系的标准句式。indicating a widening gap 自然引出趋势判断。

填空示范：By the end of the period, the figure for online sales was nearly three times that of in-store purchases, indicating a widening gap between digital and physical retail.

⚠ 倍数算错就翻车。two times = 2倍 = doubled; three times = 3倍 = tripled。

No.32

起伏波动句

适用场景：数据先涨后跌或多次起伏

The figure for ___ followed an irregular pattern, climbing to ___ in ___ before plunging back to ___ within just ___ years.

怎么用：irregular pattern 是描述非线性变化的关键词。climbing to / plunging back 这对动词比 went up / went down 鲜活很多。

填空示范：The figure for international tourist arrivals followed an irregular pattern, climbing to 320 million in 2019 before plunging back to 80 million within just two years.

⚠ 用了 plunge（暴跌），跌幅必须够大（30%以上），否则用 declined / dropped 即可。

No.33

百分比聚合句

适用场景：饼图 / 表格中需要把几项小数据合并描述

Together, ___ and ___ accounted for over ___% of the total, leaving the remaining categories with only marginal shares.

怎么用：Together, A and B accounted for over X% 是聚合分析的高分句式。marginal shares 比 small parts 学术感强。

填空示范：Together, electricity and gas accounted for over 70% of total household energy use, leaving renewable sources with only marginal shares.

⚠ 百分比相加不能超过 100%，最好留出 5% 缓冲（写 over 65% 而不是 exactly 70%）。

PART 3 | 高分词汇升级表

PART 6 | 7分 vs 5.5分 实例对比

同样的题目，5.5

分和

7

分到底差在哪里？下面从雅思官方评分的四个维度，每个都给你一个真实对比。看完你就会知道自己哪里可以快速提分。

TR · 任务回应

5.5分写法：

题目问 'to what extent agree'，但开头就写 'Nowadays, education is very important...'，没正面回应同意还是不同意。

7分写法：

开头第二句就明确立场：'I largely agree with this view, particularly when it comes to ____, although certain reservations remain regarding ____.'

拉分关键：

立场必须早出现 + 必须 specific (largely / partly / strongly)，不要笼统说 agree。

CC · 连贯衔接

5.5分写法：

段落之间用 'Also' / 'Besides' / 'In addition' 这种最弱的连接词，每段都用一遍。

7分写法：

段落过渡用逻辑词：'Building on the previous point...' / 'A counterpoint worth considering is...' / 'This brings us to a deeper question...'

拉分关键：

连接词的多样性 + 真正体现逻辑（递进 / 转折 / 因果 / 对照），而不是简单罗列。

LR · 词汇资源

5.5分写法：

people / important / good / bad 在一篇文章里反复出现，搭配也是基础的 (very important / a lot of people)。

7分写法：

替换为 individuals / pivotal / advantageous / detrimental，搭配用 a wide range of / play a pivotal role / pose a serious threat。

拉分关键：

不是堆砌生僻词，而是替换基础词 + 用对搭配。一篇文章重复词不超过 2 次。

GRA · 语法多样性

5.5分写法:

全文都是 'I think...' / 'It is...' / 'There are...' 这种简单句, 时态偶尔混用。

7分写法:

穿插使用: 让步从句 (Although...) + 定语从句 (which / that) + 倒装虚拟 (Were ____ to) + 插入语 (——) + 被动语态。

拉分关键:

至少 2 个复合句 + 1 个虚拟 / 倒装 + 1 个分词作状语, 时态严格统一。
